

4.5 DPR of Korea

4.5.1 Regulations on the Safe Management of GMOs (2004) (Draft)

The draft legislation calls for safe storage and maintenance of genes and GMOs, risk assessment as an integral part of introduction and use of GMOs, and supervision and control by authorised committees/institutions

4.5.2 National Biosafety Framework in DPR of Korea (2004)

The National Biosafety framework is aimed to protect life and health of the people from the possible harmful effect of modern bioengineering products. It also contributes in protection of ecological environment, safe development of biotechnology of the country and also promote cooperation with international organizations and other countries
